## Life Drawing

We provide the following art materials for drawing: easel, wood board, paper, normal pencils, sanguine, sepia, charcoal, ink. We invited nude model to study the fundamental principles, methods and techniques of classical art.

### What we'll do on Life Drawing

During our first hour class, we'll walk through the basics of drawing different poses 5-15min, and how to approach them. We find the best way to learn is to jump right in, so be prepared to be drawing for the entire session! After the last pose, we take a break for 15-20 minutes. This is a great chance to mingle, recharge and get feedback about your work. Our second hour has longer poses 15 min than the first one. This class is great on its own or as a continuance of the first class. It's guided by professional artist Sergei Rozhnov, please take the opportunity to observe his art work [sergeirozhnov.com](http://sergeirozhnov.com) At the end of the second class we have an optional critique for everyone who's joined us, and a chance for everyone to see everyone else's work.

This experience is an opportunity to study from real life working only with live models. 2 hours workshops.
